

The **Jaws®** and **Hammerhead™** nozzles water speed is increased by “looping” it around a patented system of individual conduits.

JAWS® & HAMMERHEAD™

The Jaws® and Hammerhead™ sewer nozzles water speed is increased by “looping” it around a patented system of individual conduits. This results in disciplined, well defined and powerful water streams that stays together longer and farther behind the nozzle.

The water stream angle, the jet and the jet sizes are scientifically designed for optimum thrusting and cleaning efficiency.

The Jaws® sewer nozzles have set a new standard that all other nozzles are measured by, cutting overall operating costs and increase efficiency.

Characteristics

- Quality stainless steel construction for turbulence free water. Transporting the water to individual jets with SBR rubber conduit cover.
- Variable jet sizes to accommodate flows from 5-265 US GPM.
- Low angle jet streams, attack debris at its weakest point with superior performance.
- Increase efficiency 30-50 % compared with conventional nozzles.
- Less wear on pump.
- Less fuel consumption

**5 Year Limited
Warranty!**

Hammerhead Specifications	
Hose size	1/2" up to 1"
Water flow	5-50 US GPM
Pipe dimension	4" - 12"
No. of jets	4
Jet size	0.9 up to 2.8 mm
Available sleds	1 size: 4"-12"
Item	Custom Wrench (Easy Removal of Nozzles) .8lbs
Weight	0.9 Lbs
Weight with sled	1.5 Lbs
Length	3.4"
Length with sled (4" - 6")	7.1"
Diameter without sled	1.2"

Note: Weights and dimensions are approximate and subject to change without notice. Weights and dimensions may vary depending on equipment installed.

Art no.	Description
HH01	Hammerhead™ incl. 4 jets complete with one sled (4"-12"). Hose connection adjusted to your needs. Comes with 5 year limited warranty on the nozzle itself.

**10 Year Limited
Warranty!**

Jaws® Specifications	
Hose size	3/4" up to 1 1/2"
Water flow	30-265 US GPM
Pipe dimension	6" and up
No. of jets	6
Jet size	1.9 up to 6.0 mm
Available sleds	5 sizes: 6", 6"-8", 10"-12", 15-24"
Item	Custom Wrench (Easy Removal of Nozzles) .8lbs
Weight	3.0 Lbs
Weight with sled (10"-12")	6.6 Lbs
Length	5.9"
Length with sled (10" -12")	11.8"
Diameter without sled	3.7"

Note: Weights and dimensions are approximate and subject to change without notice. Weights and dimensions may vary depending on equipment installed.

Art no.	Description
JN01	Jaws® incl. 6 jets complete with one sled (with your option of 6", 6-8", 10-12" and 15-24"). Hose connection adjusted to your needs. Comes with 10 year limited warranty on the nozzle itself.
